Estimated Replacement Cost

Calculated Value:

\$454,000.00

(\$412,545.00 - \$495,454.00)

The estimated replacement costs above represent the approximated costs required to rebuild a similar structure generally described herein in the referenced geographic market. It includes pricing for labor, materials, applicable permits and fees, sales tax, and contractor's overhead and profit; it does not include costs for major excavation or land value. This estimate is intended to function as one of several sources of information in estimating a replacement cost and is not guaranteed to represent actual replacement costs in the event of damage or loss. Replacement cost includes all applicable permits, fees, overhead, profit, and sales tax. Note: DP-1 (Basic Dwelling Fire) policies are settled on an Actual Cash Value basis (Replacement Cost less depreciation).

This Report is not intended to: (i) serve as the sole source of information, but rather one of several sources, for estimating replacement costs and not guaranteed to represent actual replacement costs; (ii) serve as a statement as to the existence or condition of the structure or property; and (iii) serve as market value appraisals or an assessment of market conditions. This Report has not been adapted to or conformed to any mortgage-lending or real estate-industry regulations, standards or purposes and, without limitation, may not be used or distributed for any real estate-related purpose, including distribution to a mortgage lending institution or use for purposes of a real estate closing.
